

In the Specification:

On page 1, after the title, please insert:

Cross Reference to Related Application

This is a 371 filing of International Application PCT/FR2005/050197, filed March 30, 2005, and published, in French, as International Publication No. WO 2005/094652 A1 on October 13, 2005, and claims priority of French Application No. 0450648, filed on April 1, 2004, which applications are hereby incorporated by reference herein, in their entirety.

Background Art

On page 2, line 9 insert:

Summary of the Invention

On page 2, rewrite lines 15 – 35 to read as follows:

Another ~~object~~aspect of the invention was to devise an endpiece specifically designed to fulfill the intended objectives, since no use of the prior-art endpiece can be used with the embodiment provided by the invention.

Another ~~object~~aspect of the invention was to devise a novel endpiece that would solve the problems posed, in an inexpensive embodiment, and a possible additional cost that would be insignificant compared with the production of endpieces according to the prior art, by also providing, in addition, special features on the bracket or brackets of the dispenser housing that will not create excessive additional costs in the implementation.

Another ~~object~~aspect was to devise an endpiece and special features for the brackets of the housing that will allow automatic removal of the reel when fully unwound, when the dispenser cover is opened.

These and yet other ~~objects~~aspects will become clear as the description proceeds.

On page 3, line 20 insert:

Brief Description of the Drawing Figures.

On page 4, line 25, insert:

Detailed Description

On a separate page at the end of the specification, kindly add the Abstract of Disclosure presented on the following page.
